

NSA A:
No noise barriers were analyzed for this area during this study. This area was analyzed in the I-4 Ultimate Noise Study in 2013 and had no barriers recommended as reasonable and feasible.

NSA B:
No noise barriers were analyzed for this area during this study as it was analyzed in the I-4 Ultimate Noise Study in 2013. NSA B is getting a 14 foot tall 450-foot-long barrier mounted wall. No additional barriers were recommended as reasonable and feasible, and the remaining existing ground-mounted walls will stay in place.

I-4 Beyond the Ultimate Segment 3 Limits

- I-4 Beyond the Ultimate - Segment 3 Study Area
- I-4 Segment 3 R/W

Noise Sensitive Areas (NSA)

- NSA-A
- NSA-B
