IMPROVEMENTS TO INTERSTATE 4 (I-4) IN SEMINOLE COUNTY

The Florida Department of Transportation (FDOT) is conducting improvement projects to I-4 in Seminole County that will help keep traffic flowing more smoothly and safely. The projects include adding an auxiliary lane and resurfacing eastbound I-4 from the I-4 Ultimate project to west of Lake Mary Boulevard (FPID: 439682-3) and reconstructing the E.E. Williamson Road overpass (FPID: 439682-4; see reverse side for more information about the overpass). It also includes resurfacing both directions of I-4 from west of Lake Mary Boulevard to County Road 46A and State Road 46 to the Volusia County line (FPIDs: 439682-1, -2, -5).

- » These projects will help accommodate traffic from the eastbound I-4 Ultimate Express Lanes as well as to extend the life of the existing pavement on I-4.
- » Construction on eastbound I-4 began in August 2019 and was completed in May 2020. Construction on westbound I-4 began in June 2020.
- » During construction, lane closures on I-4 will be limited to overnight hours between 8 p.m. and 6:30 a.m.

E.E. WILLIAMSON ROAD BRIDGE REPLACEMENT

The widening of I-4 — both for this project and the final I-4 Beyond the Ultimate Configuration — requires FDOT to rebuild the E.E. Williamson Road overpass. The overpass will be constructed in phases to maintain both eastbound and westbound access.

- » The bridge will be widened to include a 6-foot-wide sidewalk on the eastbound side of E.E. Williamson Road and a 10-foot-wide trail on the westbound side.
- » Both directions of E.E. Williamson Road will include 6-foot, 4-inch bike lanes.
- » Construction began in September 2019.
- » During construction, lane closures on E.E. Williamson Road will occur overnight between 8 p.m. and 6:30 a.m.
