### **Traffic Advisory: State Road 417 to Westbound I-4 Closure Scheduled for August 15-16**

**OSCEOLA COUNTY, Fla.** – Motorists should be advised that an overnight closure is scheduled to occur on the westbound Interstate 4 (I-4) collector-distributor (C-D) road from State Road 417 the nights of Tuesday, August 15 and Wednesday, August 16.

The road will close as soon as 10 p.m. each night and will reopen by 6 a.m. the following morning.

Detours will be in place for motorists traveling to westbound I-4. The Florida Department of Transportation (FDOT) advises motorists to follow all posted detour signs. Please see the attached detour map for more information.

C-D roads are extra lanes between interstates and lower-speed local roads. They provide access to and from the interstate and help motorists transition between lower and higher speeds.

The closure is necessary for the milling and resurfacing of the road. Milling and resurfacing will create a smoother roadway for motorists and extend the life of the pavement. Construction schedules are subject to change due to weather or other unforeseen circumstances.

Please continue to use caution while driving through active construction zones. Remember to always be alert while riding or driving.

For more information on the planned improvements on I-4 in Osceola County, visit the project website at [I4Beyond.com/ChampionsGate](http://I4Beyond.com/ChampionsGate).

Media inquiries should be directed to the FDOT Public Information Office at [FDOT-D5COMM@dot.state.fl.us](mailto:FDOT-D5COMM@dot.state.fl.us) or by phone at 386-943-5593.

*The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.*
