IMPROVEMENTS AT THE INTERSTATE 4 (I-4) AND U.S. 17-92 INTERCHANGE

Financial Project Identification (FPID) No.: 242592-8

This project is expected to increase safety at the I-4 and U.S. 17-92 interchange in Seminole County by improving sight distance for motorists, upgrading crosswalks for pedestrians and bicyclists, and reducing the speed limit from 50 mph to 35 mph. Construction started in fall of 2023 and is expected to be complete by late 2024.

1 Realigning the eastbound I-4 exit ramp to U.S. 17-92 westbound to improve sight distance and adding crosswalk improvements, including a pedestrian-activated crossing signal.

2 Adding an auxiliary lane on eastbound U.S. 17-92 between the westbound I-4 exit ramp and Monroe Road.

3 Adding a second right-turn lane from U.S. 17-92 when driving east to continue south on U.S. 17-92/Monroe Road. The dual right-turn-only lanes will stop at the signalized intersection with Seminole Boulevard, replacing the existing free-flow right turn.

4 Adding a right-turn lane from southbound U.S. 17-92/Monroe Road to the eastbound I-4 entrance ramp.

5 Adding a left-turn lane from westbound Seminole Boulevard to U.S. 17-92/Monroe Road to drive south.
