Traffic Advisory: Eastbound I-4 Exit Ramp to Central Florida Parkway Scheduled to Close Overnight August 11

ORANGE COUNTY, Fla. – Motorists should be advised that the Florida Department of Transportation (FDOT) is implementing a nighttime full ramp closure of the eastbound Interstate 4 (I-4) exit ramp, exit 71, to Central Florida Parkway starting as early as 9 p.m. Sunday, Aug. 11. Crews expect to reopen the ramp by 6:30 a.m. the following morning.

The closure is necessary for crews to remove the barrier wall along both sides of the exit ramp.

During the ramp closure, drivers on eastbound I-4 who wish to head east or west on Central Florida Parkway must follow the detour signs on I-4 and use the next exit, exit 72, to eastbound State Road (S.R.) 528 (Beachline Expressway). Motorists will proceed to Exit 1 and exit at International Drive, where they have the option to continue straight off the exit ramp to Westwood Boulevard or turn left onto southbound International Drive to access Central Florida Parkway.

The detour for this full ramp closure is the same one that has been used for the right turn onto eastbound Central Florida Parkway since early 2023.

FDOT advises motorists to follow all posted signs. Construction schedules are subject to change due to weather or other unforeseen circumstances.

Please continue to use caution while driving through active construction zones. Remember to always be alert while riding or driving.

For more information on the planned improvements on I-4 in Orange County, visit the project website at i4Beyond.com/darylcarter.

Media inquiries should be directed to the FDOT Public Information Office at FDOT-D5COMM@dot.state.fl.us or by phone at (386) 943-5593.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
