Traffic Advisory: Overnight Closures of Central Florida Parkway Under I-4 January 22-23

ORANGE COUNTY, Fla. – Motorists are advised that the Florida Department of Transportation (FDOT) is implementing overnight closures of all lanes of Central Florida Parkway under Interstate 4 (I-4) from Thursday, January 22, to Friday, January 23. The closures will begin as early as 1:00 a.m. and reopen by 5:00 a.m. the same morning. During this time, motorists exiting eastbound I-4 to Central Florida Parkway (Exit 71) will be limited to right turns only.

These closures are necessary for I-4 bridge work over Central Florida Parkway as part of the I-4 and Sand Lake Road interchange improvement project.

See detour information below and attached detour map.

To access Central Florida Parkway east of I-4:

Proceed south on Palm Parkway, then turn left onto eastbound Daryl Carter Parkway. Turn left onto northbound International Drive, then turn left onto Westwood Boulevard, continuing north to access Central Florida Parkway.

To access Central Florida Parkway west of I-4:

- **From westbound I-4**, take Exit 71 and stay in the right lane to head east on Central Florida Parkway, then turn right at the first traffic signal onto southbound Westwood Boulevard. From there, turn right onto International Drive, heading southeast before turning right again onto westbound Daryl Carter Parkway. From there, turn right on northbound Palm Parkway to access Central Florida Parkway.
- **From westbound Central Florida Parkway**, turn left onto southbound Westwood Boulevard, then follow the same route as above.

FDOT advises motorists to follow all posted detour signs. Construction schedules are subject to change due to weather or other unforeseen circumstances.

For more information about the improvements on I-4 at Sand Lake Road, visit the project website at I4Beyond.com/SandLake.
