Traffic Advisory: Overnight Closures of Central Florida Parkway Under I-4 May 8 and 14

ORANGE COUNTY, Fla. – The Florida Department of Transportation (FDOT) is implementing overnight closures of all lanes of Central Florida Parkway under Interstate 4 (I-4) on Friday, May 8, and Thursday, May 14. The closures will start as early as 12 a.m. each night and reopen later in the morning by 5 a.m.

During these closures, motorists exiting eastbound I-4 to Central Florida Parkway at Exit 71 will be limited to right turns only.

These closures are necessary for two overhead bridge deck concrete pours over Central Florida Parkway as part of the ongoing I-4 and Sand Lake Road (State Road (S.R.) 482) improvement project.

NOTE: If crews are unable to complete the concrete deck pours as planned due to weather or other unforeseen circumstances, the May 8 closure will shift to Monday night, May 11, and the May 14 closure will shift to Friday night, May 15. Work would occur during the same overnight hours.

See detour information below and attached detour map.

To access Central Florida Parkway east of I-4:

- **From southbound Palm Parkway**, turn left onto eastbound Daryl Carter Parkway. From there, turn left onto northbound International Drive, then turn left again onto Westwood Boulevard, continuing north to access Central Florida Parkway.
- **From Daryl Carter Parkway**, take the entrance ramp to eastbound I-4, then take Exit 71 to access Central Florida Parkway.

To access Central Florida Parkway west of I-4:

- **From eastbound I-4**, take Exit 71 and stay in the right lane, turn right onto eastbound Central Florida Parkway, then turn right at the first traffic signal onto southbound Westwood Boulevard. From there, turn right onto International Drive, heading southwest before turning right again onto westbound Daryl Carter Parkway. From there, turn right on northbound Palm Parkway to access Central Florida Parkway.
